

**Forklift Operator Training-- User Level (Code PIT01)*
(Powered Industrial Truck)
Class Duration— 4 hours**

Price—Members \$55.00 Non-members \$75.00

Recommended For:

All employees who operate powered industrial trucks*

Course Description

This training includes a combination of lecture, discussion, visual PowerPoint presentation and practical exercises performed by the trainee. These topics include:

- Operating instructions
- Warnings and precautions for the truck the operator will be authorized to use
- Differences between the truck and automobile
- Truck controls and instrumentation, engine or motor operation
- Steering and maneuvering
- Visibility (including restriction due to loading)
- Fork and attachment adaptation
- Operation and use limitations
- Capacity and stability of the vehicle
- Inspections, maintenance, refueling and/or charging the batteries

Course Objectives:

To train employees in the proper and safe operations of powered industrial trucks, which includes the proper care, maintenance, and safe operation while using a forklift.

*Operator training must be received before assignment to operate a powered industrial truck.**

**Refresher training is required for the following: (per 1910.178, and 1926.602)

- The operator has been observed to operate the vehicle in an unsafe manner
- The operator has been involved in an accident or near miss incident
- The operator has received an evaluation that reveals that the operator is not operating the truck safely.
- The operator is assigned to drive a different type of truck
