- ***Beneficial for everyone!***

Course Description

Basic Life Support (BLS) is designed for healthcare personnel AND other individuals who need to know how to perform CPR and other basic cardiovascular life support skills in a wide variety of in-hospital and pre-hospital settings.

BLS trains participants to promptly recognize several life-threatening emergencies, give high-quality CPR, deliver appropriate ventilations, and provide early use of an AED. It teaches both single-rescuer and team basic life support skills for application in both prehospital and in-facility environments, with a focus on High-Quality CPR and team dynamics.
