Who we are:
FDRsafety, LLC is a national team of experts based in Franklin, TN, with experience in general industry and construction.

Our team's experience encompasses decades of service in OSHA compliance and corporate and site-level safety and health program leadership. FDRsafety has experience improving occupational safety and health performance at companies of all sizes, including complex, multinational organizations.

FDRsafety's experience and expertise achieve results by providing custom solutions to your organization's unique safety and health needs.

What we do:
Full-service safety and health consulting.

- Safety and Health Program Management: Safety and Health program assessments, written program development, technical consultation and support, OSHA injury/illness recordkeeping training and assistance, Safety and Health Culture Assessment and strategic planning, and safety and health training.
- OSHA Compliance Assistance: Mock OSHA Inspections, Hazard Assessments (electrical safety, PPE, IH), written program review, and OSHA inspection assistance (before, during, or after the inspection).
- Safety Expert Witness Services
- Safety Awareness Training – Our Safety Awareness training program has been presented to more than 500,000 managers and employees at companies of all sizes in various industries, and it gets results.
- Temporary and Permanent Safety and Health Staffing
